

## EDM.com's Guide To Miami Music Week Pt. 1

by Tommy Tsao on Mar 17, 2015

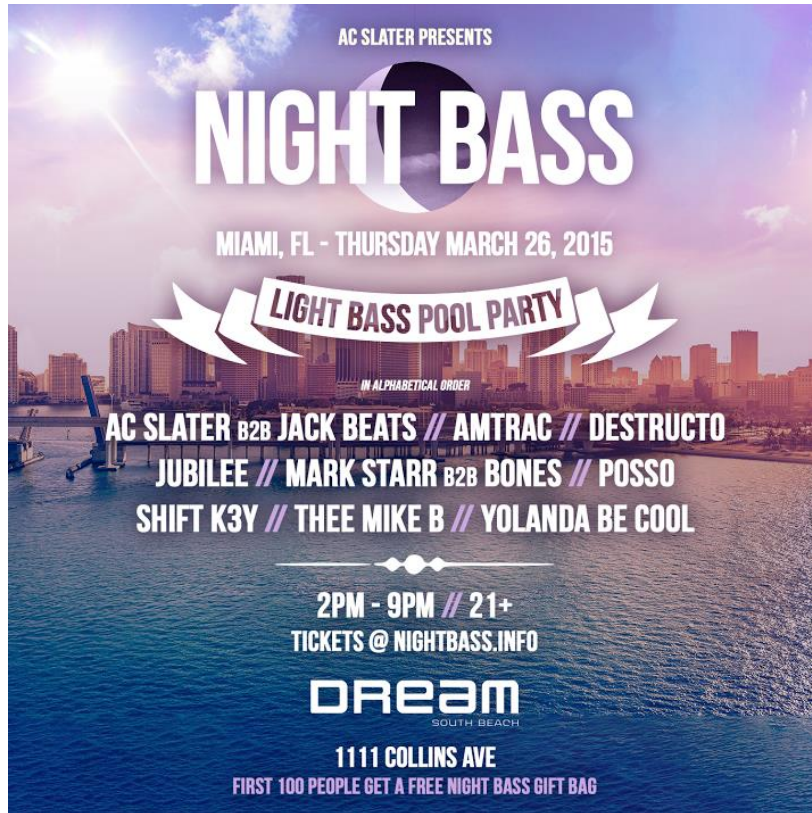

In a few days time, one of the biggest events in the EDM will start once again: **Miami Music Week**. Running on March 24-29, 2015, MMW spans the city of Miami with an impressive roster of club parties, pool parties, lounge parties, mini-festivals and more. This year, we've decided to break the parties down across three categories: headliner parties, underground parties and bass parties.

For each list, a dedicated team at **EDM.com** has worked to give our readers insight into what we believe represent the best parties for this year. Whether it be getting it down with **Destructo** and the **HARD** crew at Grand Central or losing yourself until the early morning with **Damian Lazarus** and **Claude VonStroke**, this will be an all-inclusive guide to underground parties, so you can make the most out of your Miami Music Week experience.
